

Kimly Construction selected Greencast patented wall system to be used as internal partitions for their Sophia Residence project

Greencast, the trusted lightweight precast concrete wall manufacturer announced today that Kimly Construction selected Greencast Compac™ green wall technology for their Sophia Residence project.

Being a public listed company on the Singapore stock exchange since 1978, GuocoLand Limited (SGX: F17) is a renowned Developer in the market. With the help from Kimly Construction, Sophia Residence is able to achieve the BCA Green Mark Platinum award. Being a market leader in the residential segment, Kimly is very particular with the materials that is used in their project.

"The Compac™ Green wall technology has also been contributing to the construction industry's movement towards 'zero building waste', commented Professor Wee Tiong Huan. "We are glad to have contributed to helping GuocoLand and Kimly achieve the highest BCA Green Mark award with our hollow core wall panels."
