

## Greencast was awarded Westgate@Jurong East project by Shimizu Corporation

Greencast, the trusted lightweight precast concrete wall manufacturer announced today that Shimizu Corporation has selected Greencast patented wall system to be installed in their Westgate Integrated Development at Jurong East.

Being a renowned global contractor, Shimizu is very concern with quality of materials used in their projects. They will undergo detail analysis before selecting the right materials brands. Being an A1 contractor under the BCA Contractor directory, they have managed to develop high standard finish projects. Shimizu launches its Singapore operation in 1973 and has consistently answered the demands of a vibrant economy for quality buildable design and construction since then. They have also achieve numerous BCA awards for construction excellence and best buildable design. Shimizu has also continued to attain quality, safety and environmental standards to meet customer and regulatory requirements.

Located at the heart of Jurong Gateway, the integrated retail and office development comprises of a 7-storey lifestyle and family shopping mall and a 20-level office tower known as Westgate Tower. Having attain BCA Green Mark Platinum award, Shimizu has yet established another strong foothold in the integrated development segment. Having to use Greencast ecoWall™ and ecoBlock™ in the project, Shimizu is certain about the quality of the licensed product that Greencast is offering.

Being an off-site construction, Shimizu will be able to keep their cost down with the use of Greencast precast partition walls and blocks. Furthermore, it is durable and has high fire-resistance, which matches the specifications given by the project Consultants. End users are also able to enjoy an ecological and healthy feeling while having time out with family in the mall or working inside the office block.
